

UH 4/14 D Circuit Cooler

Description

- Space-saving
- Powerful
- CFC-free

Cooling for:

- Up to 4 electrophoresis chambers
- Thermo cycler
- Water bath
- Cooling blocks
- Rotary evaporator
- Incubators

Order No.: 104.0050

Technical Data

Temperature range	-10°C to room temperature
Temperature sensor	PT 100
Control accuracy	+/- 0,5 °C
Cooling capacity	at 4°C 250 Watt
Circulation pump	0.35 bar max. pressure
Temperature control	Setpoint 4°C and 14°C and continuous (optional)
Temperature shutdown	Capillary tube or digital PT100 probe (optional)
Safety shutdown	Overload protection for pump motor, overload protection for compressor
Dimensions (L x W x D)	260 x 220 x 330 mm
Weight	16.5 kg
Refrigerant	CFC-free
Operating temperature	+ 10°C to + 30°C
Power supply	220 V, 50/60 Hz < 450 Watt (max.)

Circuit Cooler UH 4/14 D

Circuit Cooler UH 4/14 D right
with RCS Incubation Hood (104.0250)
