# qPCR Reagents for MyGo Cyclers

## Description

Real-Time PCR reagents for safe results.
These quality reagents were especially designed for use in MyGo instruments.

High specific activity polymerases together with antibody based hot-start provide speed, specificity and sensitivity.
Buffers optimised for the best results under challenging conditions such as high GC targets, secondary structure and inhibition.
Formulated for flexible use, including multiple freeze thaw cycles, extended stability of fully assembled reactions, and multiplex PCR.

| Product | Application | Pack size | Presentation | Part number |
|---|---|---|---|---|
| MyGo Green Mix Universal ROX | qPCR from DNA | 100 reactions (20µl) | (1x1 ml mix) & (1x150 ml ROX) | 6410 |
| | qPCR from DNA | 500 reactions (20µl) | (5x1 ml mix) & (1x150 ml ROX) | 5935 |
| | qPCR from DNA | 2000 reactions (20µl) | (20x1 ml mix) & (4x150 ml ROX) | 8972 |
| | qPCR from DNA | 5000 reactions (20µl) | (1x50 ml mix) & (1x520 ml ROX) | 1841 |
| MyGo Probe Mix Universal ROX | qPCR from DNA | 100 reactions (20µl) | (1x1 ml mix) & (1x150 ml ROX) | 8151 |
| | qPCR from DNA | 500 reactions (20µl) | (5x1 ml mix) & (1x150 ml ROX) | 4097 |
| | qPCR from DNA | 2000 reactions (20µl) | (20x1 ml mix) & (4x150 ml ROX) | 1994 |
| | qPCR from DNA | 5000 reactions (20µl) | (1x50 ml mix) & (1x520 ml ROX) | 1480 |
| MyGo Probe Mix No ROX | qPCR from DNA | 100 reactions (20µl) | 1x1 ml | 2003 |
| | qPCR from DNA | 500 reactions (20µl) | 5x1 ml | 2743 |
| | qPCR from DNA | 2000 reactions (20µl) | 20x1 ml | 9808 |
| | qPCR from DNA | 5000 reactions (20µl) | 1x50 ml | 3818 |
| MyGo SNP Probe Kit No ROX | Hydrolysis probe genotyping | 100 reactions (20µl) | 1x1 ml | 6489 |
| | Hydrolysis probe genotyping | 500 reactions (20µl) | 5x1 ml | 3605 |
| | Hydrolysis probe genotyping | 2000 reactions (20µl) | 20x1 ml | 2585 |
| MyGo Green 1-Step Low ROX | qPCR from DNA | 100 reactions (20µl) | (1x1 ml mix) & (1x100 µl RTase) | 6756 |
| | qPCR from DNA | 300 reactions (20µl) | (3x1 ml mix) & (3x100 µl RTase) | 3379 |
| | qPCR from DNA | 1200 reactions (20µl) | (12x1 ml mix) & (12x100 µl RTase) | 8752 |
| MyGo Probe 1-Step No ROX | qPCR from DNA | 100 reactions (20µl) | (1x1 ml mix) & (1x100 µl RTase) | 6245 |
| | qPCR from DNA | 300 reactions (20µl) | (3x1 ml mix) & (3x100 µl RTase) | 9202 |
| | qPCR from DNA | 1200 reactions (20µl) | (1x1 ml mix) & (1x100 µl RTase) | 3655 |
